

Safety • Infrastructure • Affordability • Control • Participation • Integrity

Norman Greig for Town Supervisor

PLEASE VOTE BY NOVEMBER 7

Norman Greig, who has spent a lifetime caring for the tranquil open space at the Greig Farm would like to bring that same focus to town government. He spent years of service on the Hudson Valley Greenway promoting good regional planning, and Trail networks.

SAFETY

Support our local law-enforcement, keep Red Hook, a place where families can live, work, and play in the safety of our local farm community.

COMMUNITY INFRASTRUCTURE

Support our highway department so they can maintain our local roads, keeping them in good condition in all seasons.

AFFORDABILITY

In this time of financial stress, controlling local taxes to keep life in Red Hook sustainable is all important.

INTEGRITY

Town business must be conducted in a business like way, all contracts by bid, all interaction with respect and without hidden agendas, a level playing field with sensitivity to the needs of all residents.

CONTROL

Red hook has to continue to resist the walmarting of America on our home turf and likewise resist building Levitown in the quest for affordable housing. We have a carefully crafted zoning code, which needs to be maintained while working with the community residents to allow individuals to meet their housing needs.

PARTICIPATION

The process of government in the town of Red Hook needs to be open to all, encouraging participation, listening to our committees, requesting input from stakeholders with an open conversation at town meetings.

Vote for Norman Greig, who is an advocate for the town of Red Hook's best interest, not his own.

The core values of the Greig Farm are humility, respect and tolerance.

The town can benefit from a little more of these!
